*Packaging is the first thing a consumers sees when looking at a product. It can make or break the sale.
Apart from being visually appealing, your packaging needs to be practical, usable .*

INTRODUCTION

Prakash Industries Limited is one of the largest diversified companies in India having interests in steel, power, mining, PVC pipes, and flexible packaging products. Good governance, ethics and values are tested at every stage at **Prakash Industries** With customer centricity and employee growth being our focus areas. Packaging film and laminates / composites are engineered to enhance print quality, aesthetic appeal and better shelf - life of the product being packed and to enhance information legibility, brand presentation and sustainability. We are conscious of our social responsibility and endeavour to be a responsible corporate citizen on a sustainable basis.

A QUEST FOR ENDLESS PERFECTION

VISION

To be the most preferred global brand and bench mark, offering value added sustainable laminates / composite and barrier films for packaging.

MISSION

1. Customers

To deliver the intended product as per requirement / specification without any deviation and service experience, backed by innovation, people and processes. Customer satisfaction is the ultimate goal.

2. Employees

To nurture a working environment that fosters personal and professional growth.

3. Vendors

We create a symbiotic relationships that drives the mutual growth.

4. Community

We contribute to community growth through education, skill developments and sustainable green practices.

QUALITY POLICY

Prakash Industries is strongly committed towards its customers with an aim to be “best in class” provider of advanced, biodegradable & sustainable packaging solutions.

The top management stands behind our services and continuously strives to improve our processes and capabilities by investing in state of the art design equipment, enhanced personnel training and development and continuous improvement programs such as lean methodology with an elimination of non-value added philosophy.

We actively support, promote and maintain an internal culture that respects and rewards the skills, loyalty and dedication of our employees. It is our employees who have assisted and contributed in the development of new ideas and opportunities that have allowed us to be a step ahead in the packaging industry.

We are committed to customer satisfaction through performance excellence. To achieve our vision, we must continuously improve the quality of all products and services that we provide to our customers.

We are making an optimum use of our employees at every level to understand and continuously improve our processes. The management team is focused on providing the company with the best tools & tackles possible to succeed.
