Sub : Intimation of Lighting up of Fifth Sponge Iron Rotary Kiln

Dear Sir,

This is to inform that the Fifth Sponge Iron Rotary Kiln, which was completed in the last month, has now been lighted up today, making the Company self- reliant with respect to the requirement of Sponge Iron in its Steel Melting Shop. The new Rotary Kiln shall also generate additional 15 MW power through the co-generation route, without any additional fuel cost by harnessing the waste gases emanating from the kiln. The additional power generated will be utilised captively for higher steel production.

This disclosure is in terms of Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Thanking you,

Yours faithfully,
For Prakash Industries Limited

Ashwini Kumar
